— LEAD THE WAY —

TELEMAX TECHNO COMM(TTC)

LEAD THE WAY

# ABOUT US

Over the last decade of hands-on experience in the IT, ICT, office automation & online support fields our founders & directors were able to point out the many frustrations & shortfalls experienced by clients in our industry.

From a principle of putting the client's needs first, innovative processes & thinking patterns were developed to provide real-time, custom-fit solutions to our clients rather than a "one size fit all" approach as used by many other companies. This ensured that our clients are adequately informed as to the available technologies available to streamline their business practices, whilst managing expenses accordingly. Our continuous improvement approach to your business guarantees that we structure the service according to your individual needs allowing for changes to be rapidly implemented, and preventing costly changes that companies normally incur when making said changes.

With our dedicated staff, the combined experience of more than 30 years in the market & a sincere desire to partner with content clients we can assure you that your business will perform at its best with our world-class solutions.

## MISSION

- We tailor all ICT & related services according to the individual requirements of our clients, leading the field in service delivery & product performance.
- We achieve this by combining the best infrastructure available utilised by world class products, complimented & rolled out by our highly skilled engineers.
- Service levels are sustained by our commitment to service excellence & An attitude of continued improvement, leading the way in the ICT field of business.
